

A diagram of a rectangular field with a length of 60 m. The field is represented by a rectangle with a double line on the left side and a double line on the right side. The text "60 m" is written inside the rectangle.

A diagram of a rectangular field. The top horizontal side is labeled "60 m". At each end of this side, there is a circular feature representing a well. The field is bounded by a double-line rectangle.

A diagram of a rectangular field. The top horizontal side is labeled "60 m". The field is bounded by a double-line border. At each of the four corners, there is a circular feature consisting of two concentric circles. The circles are positioned such that they appear to be part of the field's boundary or infrastructure.

A diagram of a rectangular field. The top horizontal side is labeled "60 m". The field is bounded by a thick black line on the top and bottom, and a thinner black line on the left and right. The corners are marked with small circles.

A diagram of a rectangular banner. The banner is represented by a long rectangle with a double-line border. At each end, there is a circular hole. The length of the banner is labeled as 60 m.
